Computer Based Recording

BCF2000
BCR2000

Introducing a pioneering
new line of USB/MIDI Controllers

BE IN CONTROL WITH THE

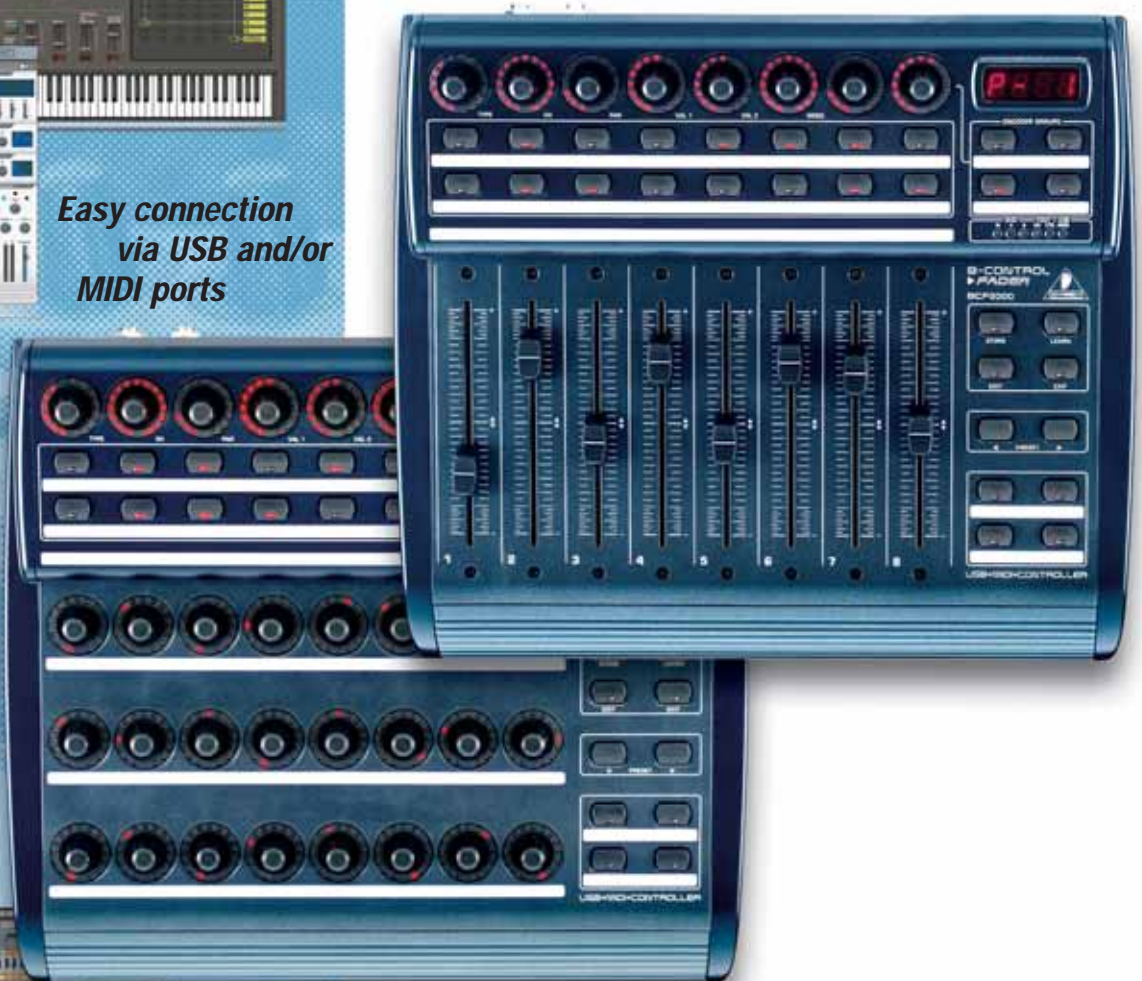

B-CONTROL

*Controls your software mixers,
synths, samplers etc.*

*Easy connection
via USB and/or
MIDI ports*

*Analog feel and
intuitive user
Interface*

*Flexible LED rings and
display for real-time
parameter indication*

B-CONTROL **ROTARY**

Tired of needing the mouse to turn dials and move faders in Cubase® or Logic Audio®? How about more intuitively controlling your synth or MIDI expander?

Well, put an end to wishful thinking!

With the BCF2000/BCR2000 USB/MIDI controllers, all this is reality!

Get ready for an innovative, hands-on control surface with real dials and motorized faders. Make group moves you can't make with the mouse!

The B-CONTROL's comfortable, intuitive user interface lets you enjoy control over your music in real time, in ways not possible with just the keyboard and the mouse. With **ultra-precise 100-mm motorized faders** (BCF2000) and high-resolution endless rotary encoders (BCR2000), you'll quickly edit settings, control effects and tweak plug-ins—in short, you'll have seamless access to everything!

Instead of frantically mousing around, you'll be turning dials and sliding faders with the real human touch!

Connect your B-CONTROL to your computer via USB. Control your MIDI/audio sequencers (Steinberg®, Emagic®, Cakewalk®), software mixers or software synths/ plug-ins with real dials and faders. You'll spend far less time clicking around and more time enjoying your music! The B-CONTROL feels like the real controls you see on your computer monitor.

B-CONTROL FADER

*Less work. More play. More Fun.
The way it was meant to be.*

All you techno/synth fans out there, here's something to get stoked about! The days of time-consuming parameter-editing are over! With the BCF2000/BCR2000, you have **instant, immediate control with significantly shorter implementation times.** It's like having **dedicated dials and faders for everything you use!**

And now, the big shebang: think of the B-CONTROL as an all-powerful remote control that lets you effortlessly juggle between all your equipment. **Assign to most frequently-used functions their own dedicated key, dial or fader, or make edits—without ever touching the mouse.** Tweak keyboard sounds by simply turning a dial or sliding a fader. Best of all, discover just how awesome MIDI can be!

*These amazing new controller desks
will redefine how you make music.
Less work. More play. More Fun.
The way it was meant to be.*

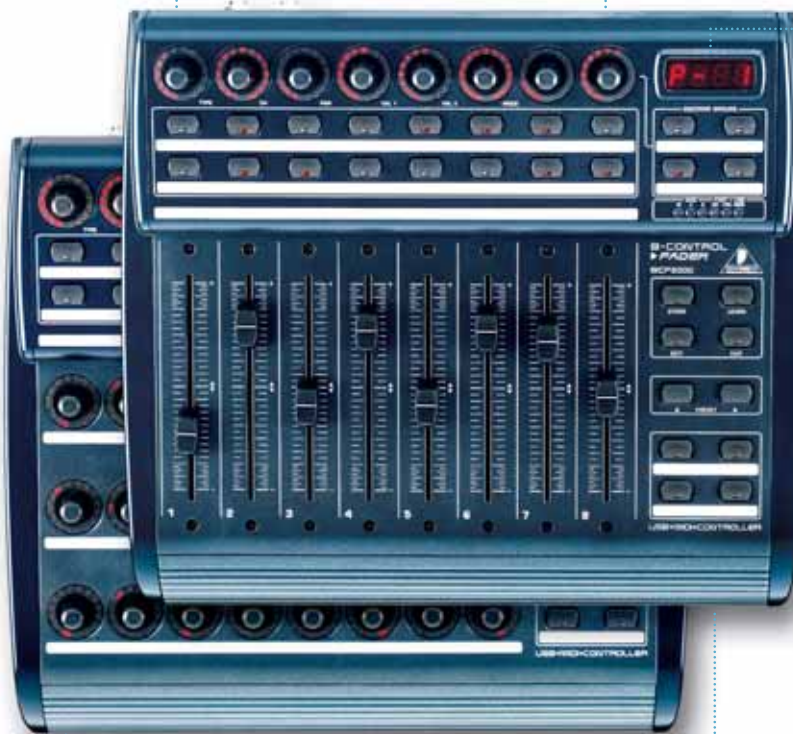

Be in control with the B-CONTROL

Introducing a pioneering new line of USB/MIDI Controllers

- ▶ Unique, total recall cascadable desktop MIDI controllers with analog feel and an intuitive user interface
- ▶ All panel elements freely assignable—manually or via user-friendly learn mode
- ▶ 32 user presets each with 4 encoder groups
- ▶ Configurable MIDI and USB modes for ultra-flexible system integration
- ▶ MIDI input with merge function for cascading several control units
- ▶ System Requirements: Generic USB MIDI support with WINDOWS® XP and MAC OS X®
- ▶ 1 MIDI In plus 2 MIDI Outs, usable as an additional USB to MIDI interface
- ▶ Easy connection to any computer/expander etc. using standard MIDI In/Out connectors
- ▶ 4 virtual groups with 8 dual-mode, high-resolution encoders that feature LED rings and an additional push function

Additional multi-function foot switch connectors (BCF2000: 1 foot switch/ 1 foot controller connector) can be used to address all types of MIDI data

▶ BCR2000: 24 high-resolution encoders with LED rings for ultimate control over virtual mixers, synths, samplers and effects processors

- ▶ Multi-function 4-digit LED display with real-time parameter indication plus write-in fields for your own labeling
- ▶ 16 + 4 illuminated buttons freely assignable to all types of MIDI functions from note on/off, control change and program change to MMC and system exclusive data
- ▶ Additional drivers and editor/librarian software available for free download on our website soon
- ▶ High-quality components and exceptionally rugged construction for long life and durability
- ▶ Designed in Germany. Manufactured under ISO9000 certified management system

▶ BCF2000: 8 ultra-precise 100-mm motorized faders for ultimate control of virtual mixers, organ-drawbars (inverse mode) or virtual synths and samplers
